

SR 712

Full electric Orbital tube bender

Applications:

Automotive : Brake, Power steering, Injection, Gas, Air Conditioning,
« HVAC » (Heating, Ventilation, Air-conditioning)

Aeronautics

Main characteristics:

- ✓ 7 numerical axes
- ✓ Full electric machine
- ✓ Maximum diameter :
 - 12 mm steel (wall thickness 2 mm)
 - 16 mm aluminium (wall thickness 2 mm)
- ✓ Orbital machine
(tube and head rotation)
- ✓ Clockwise and counter clockwise
- ✓ Multiple bending radius, multiple diameters
- ✓ SIEMENS numerical control
- ✓ Deadman handle
- ✓ Hybrid tube bending (option)
- ✓ Bending, compression bending and/or push bending
- ✓ Connection with measuring arm possible
- ✓ Comply with current CE standards
