

## **SR 816**

### **Full electric Orbital tube bender**

#### **Applications:**

Automotive : Power steering, Gas, Cooler for power steering, Air Conditioning, Exhaust tube holder, Seat parts, Gas guide gauge...  
« HVAC » (Heating, Ventilation, Refrigeration)

#### **Main characteristics :**

- ✓ 8 numerical axes
- ✓ Orbital machine (tube and bending head rotation)
- ✓ Maximum diameter :
  - 16 mm steel (wall thickness 2 mm)
  - 20 mm aluminium (wall thickness 2 mm)
- ✓ Clockwise and counter-clockwise bending
- ✓ Bending and/or « push bending »
- ✓ Full electric machine
- ✓ Multi-radii, multi-diameter
- ✓ SIEMENS numerical control
- ✓ Deadman handle
- ✓ Hybrid tube bending (option)
- ✓ Connection with measuring arm possible
- ✓ Comply with current CE standards
