

SE 932

Full electric CNC tube bender

Applications :

- Car air-conditioning.
- Structure parts.
- EGR tubes (Exhaust Gas Recycling).
- Piping (Heating, Ventilation, Air-conditioning).

Main characteristics :

- ✓ 9 electrical numerical axes.
- ✓ Maximum diameter: 32 mm (Steel).
- ✓ Fast tooling changeover (less than 5 min).
- ✓ Fix tube axis / Head shifter technology.
- ✓ Tooling adaptation flexibility, Z Axis stroke = 120 mm.
- ✓ Memorized tools adjustment.
- ✓ Siemens 840D numerical control, 611D drivers (full digital technology).
- ✓ Low maintenance, modem connection.
- ✓ High production rate (up to 95%).
- ✓ Comply with CE standards.
- ✓ Low noise level.
- ✓ Easy to set up in automated production cells.
