

SE 950

Full electric CNC tube bender

Applications:

- Exhaust line.
- Structure parts.
- « HVAC » piping.
- Hydraulic pipes.

Main characteristics:

- ✓ 9 electrical numerical axes.
- ✓ Maximum tube diameter: 50 mm.
- ✓ Fix tube axis
/ Head shifter technology.
- ✓ High production rate (up to 95%).
- ✓ Comply with CE standards.
- ✓ Low noise level.
- ✓ Memorized tools adjustment / Fast tooling changeover.
- ✓ Tooling adaptation flexibility, Z Axis stroke = 180 mm.
- ✓ Low maintenance, modem connection.
- ✓ Siemens 840D numerical control.
- ✓ Interface with external system (RS232, RS422, Ethernet).
- ✓ Easy to set up in automated production cells.
