

SILFORM

Full electric Brake Tube End Forming Transfer

Applications:

Automotive: Brake tube...

Main characteristics:

- ✓ 25 electrical numerical axis SIEMENS for the following operation:
 - Debundler and loading process
 - Double cutting operation
 - De burring
 - Peeling
 - Brushing & Cleaning
 - Bowl feeder of nuts
 - End forming
 - Video control & Poka-yoke
- ✓ Maximum OD: 4 to 8mm

Absolute accuracy : +/- 0.05mm and the position +/- 0.05° and the rotation

- ✓ Fast tooling changeover.
- ✓ Production of a complete piece all the 2.4 seconds (without cutting process)
- ✓ Memorized tools adjustment.
- ✓ Tooling adaptation flexibility, several standards possible.
- ✓ Siemens 840D numerical control.
- ✓ Low maintenance, modem connection.
- ✓ Comply with CE standards.
- ✓ Low noise level.
