

SILFORM

Full electric Fuel Tube End Forming Transfer

Applications:

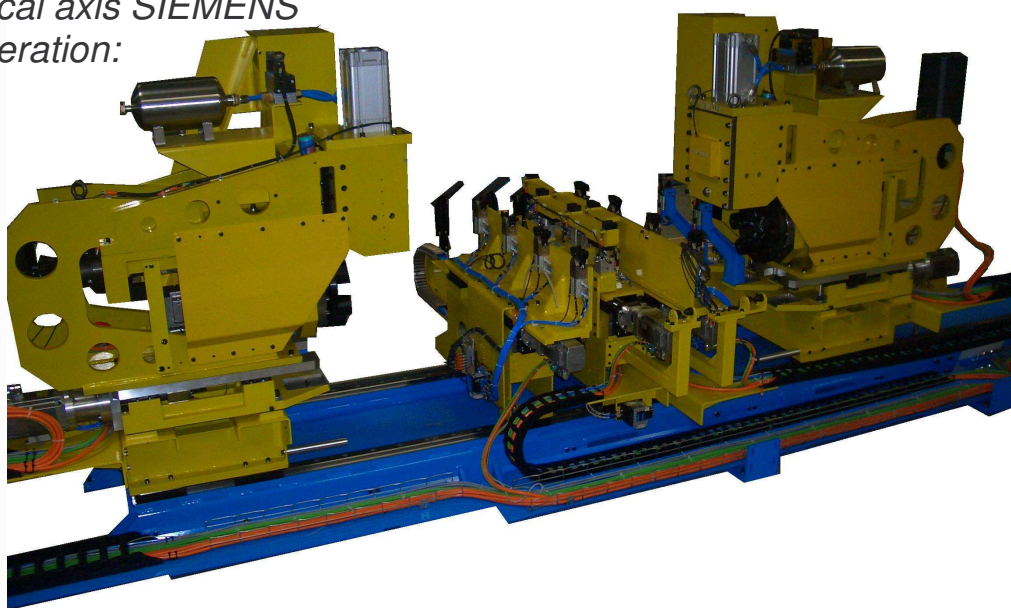

Automotive: Fuel tube...

Main characteristics:

- ☑ 15 electrical numerical axis SIEMENS for the following operation:

- Loading from coil or staigth tube
- End forming
- Video contro & Poka - Yoke
- Option:
 - Bowl feeder

- ☑ Maximum OD : 5 to 10 mm

- ☑ Absolute accuracy : +/- 0.05mm in position and +/- 0.05° on the angle.
- ☑ Production of a complete piece all the 2.4 seconds (without cutting process)
- ☑ Fast tooling changeover.
- ☑ Memorized tools adjustment.
- ☑ Tooling adaptation flexibility, several standards possible.
- ☑ Siemens 840D numerical control.
- ☑ Low maintenance, modem connection.
- ☑ Comply with CE standards.
- ☑ Low noise level.
