

GRAVITY LOADER

Full electric

Main applications:

Automotive: Diesel tube, Brake tube, Power steering tube, Injection, Gas, Air Conditioning, Cooler for power steering...

Main characteristics:

- ✓ Gravity loader from 1 to 3 stacks.
- ✓ 1 numerical axes to load the bending machine
(Controlled by the CNC of the bending machine)
- ✓ Capacity maximum:
From 80 to 150 tubes
(Depends of the diameter of the tube and the size of the nuts).
- ✓ Diameter: From 4.75mm to 20 mm.
- ✓ Straight length:
From 150mm to 2000mm.
- ✓ Loading process possible
with forming, connectors, nuts,
thermal wrap and caps.
- ✓ Conform to CE standard
- ✓ Low operating and maintenance costs
- ✓ Energy : 400 Tri – Pneumatics : 6 bars
