

## **HORIZONTAL LOADER**

### **Full electric**

#### **Main applications:**

Automotive: Diesel tube, Brake tube, Power steering tube, Injection, Gas, Air Conditioning, Cooler for power steering...

#### **Main characteristics:**

- ✓ Horizontal loader
- ✓ 1 numerical axes to load the bending machine (Controlled by the CNC of the bending machine)
- ✓ Capacity maximum:
  - 98 tubes
  - if nuts/caps > 20mm.
  - 49 tubes
  - if nuts/caps from 20mm to 25mm.
- ✓ Diameter: From 4.75mm to 20 mm.
- ✓ Straight length:      Standard length: 1200mm  
   Maximum length: 3000mm
- ✓ Loading process possible with hybride tube, forming, connectors, nuts, thermal wrap and caps.
- ✓ Option: Full possibilities of PokaYoke system.
- ✓ Conform to CE standard
- ✓ Low operating and maintenance costs
