

SR 716

Full electric CNC tube bender

Applications:

Automotive : Steering power, Fuel, Steering power cooler, Air-conditioning, Exhaust hooks, Seat parts, Gauge guide « HVAC » (Heating, Ventilation, Refrigeration)

Main characteristics:

- ✓ 7 numerical axes
- ✓ Maximum tube diameter:
 - 16 mm steel (2 mm thick)
 - 20 mm aluminium (2 mm thick)
- ✓ Left and Right bending
- ✓ Rotary draw and/or push bending
- ✓ Full electrical machine
- ✓ Multi-radius, multi-diameter
- ✓ Siemens CNC base
- ✓ « Dead man » handle
- ✓ Hybrid tube bending (available as an option)
- ✓ Interface possible with measuring equipment
- ✓ Comply with current CE standards
